NIGHTFALL 08' TO SHOWCASE NEW LIVE SHOWS AND HAUNTED ATTRACTIONS

(Old Tucson Studios) –Those poor souls brave enough to enter **Old Tucson Studio's NightFall '08** will unwittingly place themselves in the most precarious of positions! NightFall's "good" doctor, Dr. Jedediah Hyde who has spent the last year cross-mutating humans with creatures of the desert (and who knows what else) will once again reign (of terror) over unsuspecting guests.

If you dare enter the Asylum beware of Hyde's "manimals" who feed themselves on whatever crosses their path on the streets of NightFall!!!!

NightFall returns to Old Tucson Studios October 3-October 31, 2008. New haunted attractions and three horrifying new live shows might just scare the life out of some guests. In the comedic live show "Symposium of Atrocities" insane displays of an unsettling nature are frequently encountered as crazed inmates who think they are magicians play "hocus-pocus" with our audience. **WARNING: This is NOT a family magic show and NO, you DO NOT want to volunteer!**

In the haunted attraction, "Dr. Hyde's Subterranean Laboratory", **PROCEED WITH CAUTION** through the twisted halls of Dr. Hyde's state of the art research facility where you will see first hand the results of his experiments with human gene splicing! Got Arachnophobia? Enter the "Spider's Lair" and face your fears and confront your eight-legged nightmare. It'll either cure youor kill you!

This year's event will feature a sanctuary from terror for younger children (or adults!), "Not Scary Farm",
